

2020 Annual Bowl-A-Thon

Loveland-Berthoud Association of REALTORS®

Sarah Warnock has been making a huge impact within LBAR for just under 2 decades and the entire community of Loveland her entire life. With her diagnosis of breast cancer on January 3rd of this year, we are about to see her testimony of faith, strength, and pure grit become more apparent than ever! This type of cancer is threatening to move quickly due to the over-expression of the HER2 gene, so her incredible team of doctors and nurses will be starting her treatment with 6 rounds of chemotherapy at the end of January. After her chemotherapy, she will then have her surgery, radiation, and endocrine therapy to ensure this will be her only trip down this path for the rest of her life! Your support will allow her and Sal to focus on her healing--she is planning to work as much as she is able but understands this journey may have other plans in mind. Few other groups are like LBAR, with so many likeminded people who understand the abundant blessing and equal challenge it is to be fully self-employed! When this is all over with, hopefully by around August of this year, Sarah will be travelling to Israel with her sister to tour the Holy Lands--something that has been in the works for far longer than this news. Thank you for supporting in all the ways you do; Sarah and her family could not imagine a more amazing group of folks behind them!

Let's help make a difference while having a great time!
